January 31, 2013

An act to add Section 712 to the Business and Professions Code, and to add Section 131136 to the Health and Safety Code, relating to healing arts.

LEGISLATIVE COUNSEL'S DIGEST

AB 213, as amended, Logue. Healing arts: licensure and certification requirements: military experience.

Existing law provides for the licensure and regulation of various healing arts professions and vocations by boards within the Department of Consumer Affairs. Existing law requires the rules and regulations of these healing arts boards to provide for methods of evaluating education, training, and experience obtained in military service if such training is applicable to the requirements of the particular profession or vocation regulated by the board. Under existing law, specified other healing arts professions *and vocations* are licensed or certified and regulated by the State Department of Public Health. In some instances, a board with the Department of Consumer Affairs or the State Department of Public Health approves schools offering educational course credit for meeting licensing or certification qualifications and requirements.

This bill would require ~~a healing arts board within the Department of Consumer Affairs and the State Department of Public Health, upon~~

the presentation of evidence by an applicant for licensure or certification, to accept education, training, and practical experience completed by an applicant in military service toward the qualifications and requirements to receive a license or certificate *for specified professions and vocations* if that education, training, or experience is equivalent to the standards of the ~~board or~~ department. If a board *within the Department of Consumer Affairs* or the State Department of Public Health accredits or otherwise approves schools offering educational course credit for meeting licensing and certification qualifications and requirements, the bill would, not later than July 1, 2014, require those schools seeking accreditation or approval to have procedures in place to evaluate an applicant's military education, training, and practical experience toward the completion of an educational program that would qualify a person to apply for licensure or certification, as specified.

Under existing law, the Department of Veterans Affairs has specified powers and duties relating to various programs serving veterans. Under existing law, the Chancellor of the California State University and the Chancellor of the California Community Colleges have specified powers and duties relating to statewide health education programs.

With respect to complying with the bill's requirements and obtaining specified funds to support compliance with these provisions, this bill would require the Department of Veterans Affairs, the Chancellor of the California State University, and the Chancellor of the California Community Colleges to provide technical assistance to the healing arts boards within the Department of Consumer Affairs, the State Department of Public Health, and to the schools offering, or seeking to offer, educational course credit for meeting licensing qualifications and requirements.

Vote: majority. Appropriation: no. Fiscal committee: yes.
State-mandated local program: no.

The people of the State of California do enact as follows:

- 1 SECTION 1. This act shall be known and may be cited as the
- 2 Veterans Health Care Workforce Act of ~~2012~~ 2013.
- 3 SEC. 2. (a) The Legislature finds and declares all of the
- 4 following:
- 5 (1) Lack of health care providers continues to be a significant
- 6 barrier to access to health care services in medically underserved
- 7 urban and rural areas of California.

1 (2) Veterans of the United States Armed Forces and the
2 California National Guard gain invaluable education, training, and
3 practical experience through their military service.

4 (3) According to the federal Department of Defense, as of June
5 2011, one million veterans were unemployed nationally and the
6 jobless rate for post-9/11 veterans was 13.3 percent, with young
7 male veterans 18 to 24 years of age experiencing an unemployment
8 rate of 21.9 percent.

9 (4) According to the federal Department of Defense, during the
10 2011 federal fiscal year, 8,854 enlisted service members with
11 medical classifications separated from active duty.

13 2011 federal fiscal year, 16,777 service members who separated
14 from active duty listed California as their state of residence.

15 (6) It is critical, both to veterans seeking to transition to civilian
16 health care professions and to patients living in underserved urban

18 veteran applicants for licensure by healing arts boards within the
19 Department of Consumer Affairs or the State Department of Public
20 Health are expedited through the qualifications and requirements
21 process.

22 (b) It is the intent of the Legislature to ensure that boards within
